HOW YOU GET PAID

Two structures, running side by side. One pays fast, the other pays every month.

TWO KINDS OF MONEY

	PACKAGES	SUBSCRIPTION
Paid	Once, then re-entry	Every 30 days
Structure	2×2, cycles	3×12, never cycles
Arrives when	A matrix fills	Whether or not anyone buys
Grows by	Volume	Retention

THE 2×2 FILLS, PAYS, RE-ENTERS

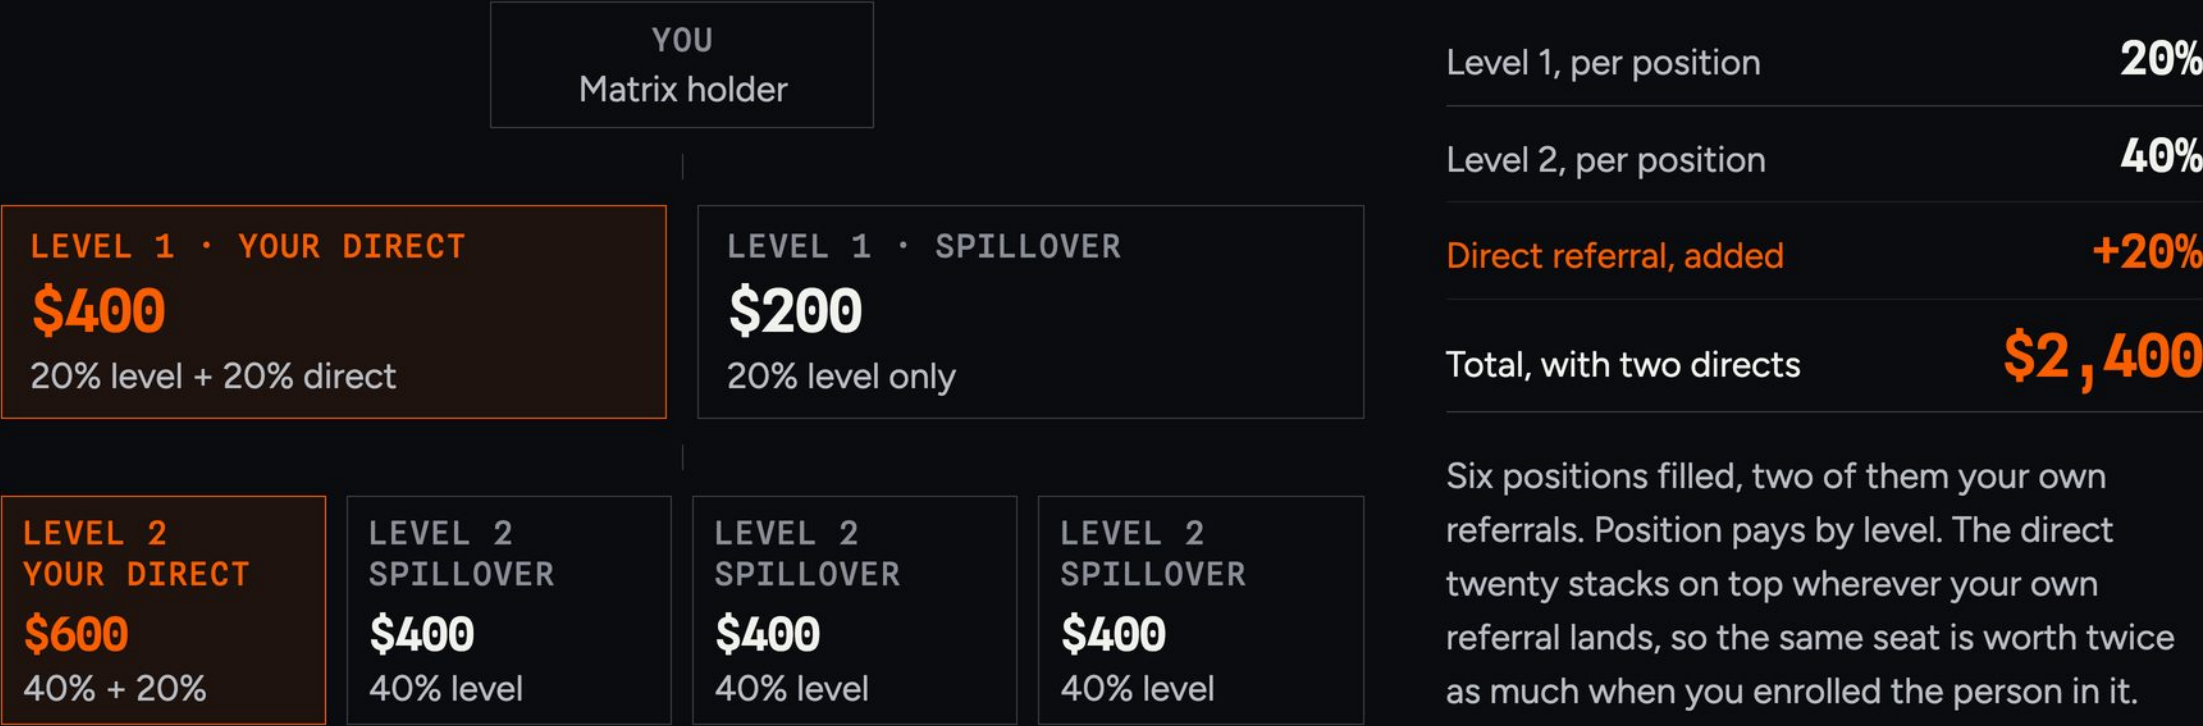

Two wide and two deep. Six positions fill a matrix. When it fills it pays out and puts you back in at the bottom of the next one — you do not buy your way back in.

Direct sponsor	20%
Depth one, two positions	20%
Depth two, four positions	40%
Funds your re-entry	20%
Total commission used	100%

Structural ceilings on a completely full 2×2 matrix, not projections, averages, or expected results. Requires an active paid subscription. Positions fill only as real people buy at that tier; placement is automatic and nobody is entitled to it, and the direct bonus pays only on people you personally referred. Paid in Bitcoin, which changes in value. Most members earn nothing. No income is guaranteed.

HOW EACH POSITION PAYS

Six positions in one matrix, shown at Go Studio. Orange positions are people you personally referred.

ONE ORGANISATION FEEDING BOTH STRUCTURES

PACKAGES, THE LUMPS

Someone you brought in buys Go Reach. A matrix fills. You are paid in hundreds or thousands, then re-entered without spending anything.

SUBSCRIPTION, THE FLOOR

The same person subscribes. That \$25 pays you every thirty days, at your rank, down to your unlocked depth, in months you sell nothing at all.

Every package sale you make also places a subscriber in your 3×12. Packages pay you faster. The subscription pays you longer.

WHY RECURRING CHANGES THE BUSINESS

It continues paying months after you sell nothing

It rewards keeping people, not just finding them

It compounds quietly instead of resetting

The tool is worth the money on its own — so people stay

Go E1U

Historical Go E1U figures. The card bonus was not in place during that period; this is an illustration of scale, not of earnings.

NOW THAT YOU'VE SEEN THE NUMBERS.

Go E1U is operated by GOLDEN HOLDING UNLIMITED INC. It sells AI software tools to small businesses. Members may also earn commissions for referring other businesses. Those are two separate things, and only one of them — the software — is something you can count on.

No income, commission amount, Bitcoin value, or business result is promised or guaranteed.

Every figure you just saw is a structural ceiling — the most a position could pay if it filled completely and every person in it stayed active and paid. Nobody's matrix is full. Ceilings are not forecasts, averages, typical results, or what you should expect.

Rank is not pay. A rank opens depth and nothing else. It is worth nothing until your organisation has actually grown past the level below it.

We have not published earnings figures, because we don't have a year of them yet. When we do, we will publish the whole distribution, including how many members earned nothing. Until then, anyone quoting you an average, a typical income, or "what people are making" is making it up.

Most members who never share their referral link earn nothing at all. That is not a required warning. That is what happens.
